FAX: 530-752-5674 EXPIRES:

**DESTINATION:** 1 Sincids Aveilde, University of Camorina, Department of Plant Pathology, Davis, CA 95616

RELEASE: No

Under the conditions specified, this permit authorizes the following:

Article Category: Plant Pathogens - Bacteria

Regulated Article
Life Stage(s) Intended Use Shipment Originally Collected Origins
Culture
Designation

Xylella fastidiosa (NOT citrus Microbial Research - Continental Originally Collected from variegated chlorosis strains) solutions Field U.S. Within the Continental U.S.

#### PERMIT GUIDANCE

Receipt or use of foreign isolates or samples from countries under sanctions requires specific permission from the U.S. Department of Treasury (see

http://www.treasury.gov/resource-center/sanctions/Programs/Pages/Programs.aspx for current country/regional listings) for current country listings.

This permit does not authorize importation, interstate movement, and/or environmental release of strains of genetically engineered regulated organisms (created by the use of recombinant DNA technology).

If an animal pathogen is identified in your shipment, to ensure appropriate safeguarding, please refer to http://www.aphis.usda.gov/import\_export/animals/animal\_import/animal\_imports\_anproducts.sh tml.

This permit does not fulfill the requirements of other federal or state regulatory authorities. As

Permit Number P526P-18-00179

appropriate, please contact the U.S. Environmental Protection Agency, the U.S. Fish and Wildlife Service, the U.S. Food and Drug Administration, the Centers for Disease Control and Prevention, the APHIS Veterinary Services unit, or your States Department of Agriculture to ensure proper permitting.

If you are considering renewal of this permit, an application should be submitted at least 90 days prior to the expiration date of this permit to ensure continued coverage. Permits requiring containment facilities may take a longer period of time to process.

### PERMIT CONDITIONS

This permit authorizes the interstate movement of pure cultures of Xylella fastidiosa (NOT citrus variegated chlorosis strains) as listed in the permit, from various researchers within the continental United States to Bryce W. Falk at the University of California in 1 Shields Avenue Department of Plant Pathology Davis, California 95616 for field research in Yolo County in California. This permit does not authorize the interstate movement of field collected infected plant material, and is subject to the additional conditions below.

- 1. The permit holder must:
  - (a) comply with all requirements and permit conditions,
  - (b) maintain a valid permit so long as the regulated organisms are alive,
  - (c) this permit cannot be assigned or transferred to other persons.
  - (d) permittee must maintain a residence in the United States
  - (e) safeguard and dispose of the regulated organisms during the term of this permit,
  - (f) take all necessary precautions to prevent the unauthorized release of regulated organisms. In the event of an unauthorized release, the permit holder must notify the permit unit,
  - (g) adequately mitigate environmental impacts resulting from unauthorized release of regulated organisms,
  - (h) contain any/all organisms not authorized under this permit,
  - (i) notify the permit unit of the receipt of unauthorized organisms,
  - (j) notify the permit unit if facilities are destroyed or decommissioned for any reason,
  - (k) maintain an official permanent work assignment at the address on this permit,
  - (1) notify the permit unit in advance of any change in the permit holder's work assignment,
  - (m) destroy all regulated organisms prior to departure unless other arrangements are confirmed by the permit unit prior to the permit holder's departure, and
  - (n) notify the permit unit of the destruction of regulated organisms.

Notifications to the permit unit must be made via 866-524-5421 or pest.permits@aphis.usda.gov within one business day of the event triggering a notification.

- 2. All persons working with these organisms must be informed of these permit conditions. Anyone working with these organisms must agree to and sign/initial these conditions before beginning work. These signed conditions do not need to be submitted to USDA/ APHIS but must be readily accessible in the event of an inspection and presented upon request.
  - Note: these conditions may be copied and stored electronically for electronic signature and initialing provided that the permit number, authorized organisms and life stages, release locations if applicable, and authorization statement all appear on the document with the permit number. Signing these conditions only indicates that the person working under this permit has read them; the permit holder is the sole responsible party under this permit.
- 3. Without prior notice and during reasonable hours, authorized PPQ and/or State regulatory officials shall be allowed to inspect the conditions associated with the regulated organisms authorized under this permit.
- 4. Inoculum for field trials must originate from pure cultures of identified organisms.
- 5. Only U.S. isolates are authorized. Isolates must be representative (e.g. races, chemotypes) of those found in the state of release or in contiguous states No foreign isolates are authorized.
- 6. Organisms must be shipped, or transported to the field, in sturdy leak-proof and escape-proof packages.
- 7. All un-used inoculum will be sufficiently heat or chemically treated to kill all plant pests prior to disposal. Alternatively, un-used inoculum may be double bagged and disposed of in a municipal landfill.
- 8. There is to be no further movement of distribution of organisms without prior approval from State and Federal regulatory officials.
- 9. You must notify us at Pest.Permits@aphis.usda.gov as soon as possible but not later than within 5 working days if the plant pathogen or associated host organism is found to have characteristics substantially different from those expected, or suffers any unusual occurrence (excessive mortality or morbidity, or unanticipated effect on non-target organisms).
- 10. Under the Plant Protection Act, individuals or corporations who fail to comply with these conditions and authorizations, or who forge, counterfeit, or deface permits or shipping labels may receive civil or criminal penalties, and may have all current permits cancelled and future permit applications denied.
